

Juan Sáez García

Web Developer

PROFILE

Experienced in building scalable web applications with a focus on front-end development using **Angular**. Previously worked with **React.js** and continue to explore it alongside other technologies.

Skilled in back-end development with **Java Spring Boot** and **NestJS**, and proficient with databases such as **PostgreSQL** and **MongoDB**.

Passionate about clean code, modern architectures, and continuous learning.

EXPERIENCE

Óscala Nearshore IT Development

- Full-Stack Developer | Valencia, Spain
May 2023 - Present

Redesigned and developed a new version of RGSplus (rgsplus.com) for real estate management, enhancing UI/UX, performance, and features.

Worked full-stack with Angular and Spring Boot, and also built a PWA mobile app for cross-platform access.

ODEC

- Full-Stack Developer | Valencia, Spain
March 2022 - May 2023

Worked on multiple projects including the electronic HQ for CAECV, a cron job to sync GVA's Oracle DB with a document manager, migration of ATV's system from Java JSF to Angular, and the architecture guide for CTAV.
